

# PM5100K Keyboard Controller

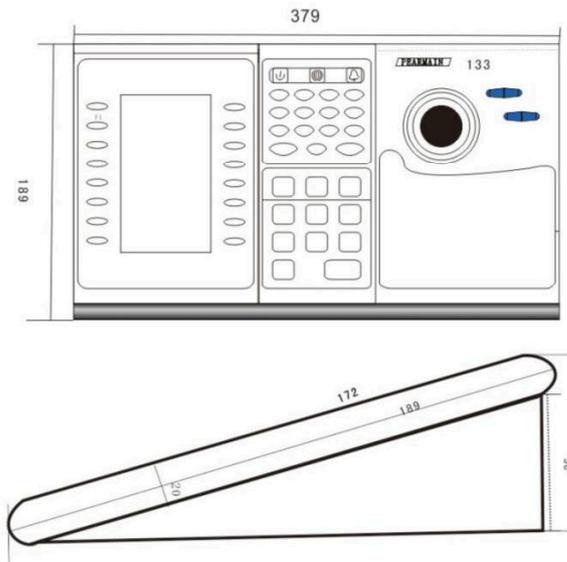

**RS485/422/2323 & Onvif communication for NVR/PTZ/Platform**

## Introduction

PM5100K series is universal keyboard  
 Have RS485/422/232/onvif communication for  
 Matrix/NVR/PTZ/Platform, with Pelco D, P  
 Protocol to be compatible to popular platform.

## Dimension

## ProductFeature

- Pelco D, P Protocol ingerated
- Marco function, it can grogram complicated Function on some simple keys
- Can upload and program firmware of Marco and Other function key from PC directly.
- Can receive alarm information from matrix to Trigger other auxiliary operation or relay3
- Operation display:240x128mm LCD by icon
- With 3D or 4D joystick.
- Display method:240x128 mm LCD
- Communication:RS-485,RS-422,RS-232/Ethernet 10/100M.
- Communication speed:can set
- Connection method:RJ45
- Pantilt control:3-asis joystick
- Power failure protection:10years

Communication	RS485,422,232, Ethernet
Communicationrate	canset
port	RJ45
Joystick	3D
Relaydrive	1A24V
Powerfailureprotection	10years
Powersupply	12VDC
Consumption	5W
Workingtemperature	-10to45degcelsius
Dimension	379*289*56mm
Weight	1.5kgs
